# respirators

## half mask twin cartridge

Has all the features of the single cartridge respirator but has been specifically designed for the wearer who requires a slightly reduced inhalation breathing resistance e.g. heavy manual work. Compatible for use with face shields, welding shields etc.

Ref. CK1003/colour - single harness

CK1003/colour - split head harness

## cartridge range

These cartridges come complete with a new screw insert and inhalation valve diaphragm

## half mask single cartridge

A low cost half mask respirator that conforms to the technical requirements of the European Standard for half-mask respirators, EN140. This product includes user friendly design features found in expensive half-masks but come as standard in the design of this respirator. Sliding head-strap, rolled edge face seal, droop snoot cartridge mode, choice of colours, split harness, lightweight. The sliding headstrap allows the user to hang the respirator around the neck when not in use avoiding contamination by placing on a dirty surface. The rolled edge face seal ensures maximum comfort and prevents soreness on the face. The droop snoot mode of the cartridge fixing allows compatibility with face shields etc. where unimpaired frontal vision is of utmost importance. The lightweight design reduces fatigue, when worn for long periods. Choice of colours also available for personal preference: red, blue, grey, green and black.

Ref. CK1002/colour - single harness

CK1002/colour - split head harness

(not illustrated).

## 28-day disposable half mask respirator

Made from medical grade PVC. This respirator is designed to conform to the requirements of EN405. The standard does not require any maintenance records to be kept and the respirator can be used for a period not exceeding 28 days.

This user friendly twin filter respirator comes complete with AIP2(s) - organic vapour/dust combination cartridges. All the comfort features found in the CK1003 respirator are included in this product. Cartridges are not replaceable. The respirator is available in red, black and blue.

Ref. CK1010/colour.

cartridge selection

Conforms to EN141 - gases & vapours & EN143 - Dust

Description	Single Resp	Twin Resp
Toxic Dust	CKS2000/P2	CK2600/P2
Organic Vapours	CKS2000/A1	CK2600/A1
Sulphur Dioxide & Acid Gases	CKS2000/E1	CK2600/E1
Ammonia	CKS2000/K1	CK2600/K1
Universal - Gases		CK2600/ABEK
pre filters: Toxic Dust	CK2007	CK2008
(solid & liquid aerosols)		
Non - toxic dusts	CK2005	CK2006

## full face respirator

This full-face respirator has been designed to give exceptional comfort and a wide field of vision. Manufactured to the requirements of EN136 this product accepts the range of both CK canisters and canisters of other manufacturers which have a standard 40mm DIN thread.

Features include: Mask made from medical grade silicone rubber, full panoramic vision that reduces blind spots, integral speech diaphragm, neck sling, inner half mask to assist efficiency and reduce fogging, lightweight, 5-point suspension harness, economical price.

Ref. CK1100

## canister range

Description	Ref.
Toxic dust	CK3000/P3
Organic vapours/gases	CK3000/A2
Toxic dust/organic vapours	CK3000/A2P3
Universal - gases/vapours	CK3000/ABEK2
Universal - gases/vapours + toxic dust	CK3000/ABEK2P3
Organic vapours/gases, inorganic vapours/gases/toxic dust	CK3000/AB2P3
Organic vapours/gases/inorganic vapours/gases	CK3000/AB2

# hearing protection

## silent fit

This range of reusable ear plugs has been designed for maximum comfort and performance. The two flange patented design exerts only sufficient pressure within the ear canal to ensure the required acoustic seal. Made from medical grade silicone rubber, these plugs are the ultimate choice for the discerning user.

Over protection in the work place can be extremely dangerous resulting in the inability to communicate with work colleagues or hear warning sounds of a potential mechanical failure. These plugs minimise this effect.

Available corded and uncorded and in various colours. Blue, Yellow, Green & Red.

Ref. CK5114/colour prs  
 CK5115/colour prs c/w Terylene cord  
 CK5116/colour prs c/w PVC cord  
 CK5117/colour prs c/w Silicone cord

## expand a band

This unique product has been designed to ensure maximum comfort. The adjustable pressure band allows the wearer to adjust the pressure exerted into the ear canal to suit their own comfort factor. Can be worn under the chin or behind the head. Available with non-detectable or detectable plugs.

Ref. CK5140 non-detectable plugs

# detectable products

manufactured for the food processing  
and pharmaceutical industries

## sonar ear plugs

The ultimate in detectability. The Sonar earplugs have all the comfort and design features of the silent-fit with the additional feature of detectability. Designed specifically for the food/pharmaceutical industries, this product is totally detectable and unlike other earplugs which depend on metal inserts such as metal clips or ball bearings, Sonar earplugs & cords remain detectable if fragmented in the manufacture process.

Ref. CK5104 (c/w cord)

## detectaglove

The unique premium quality detectable vinyl glove. This amazing glove has all the features of a top quality vinyl glove plus detectability. Detectaglove has been designed to react to the line detectors if it enters the manufacturing process and will be rejected even if fragmented.

FDA compliant: 21 CFR 170-199

Powder free. Sizes S, M, L, XL. 100 glove dispensers

Detectability 1.5mm sphere Fe

Patent app. PCT/GB01/04784
